THE MALL OF CYPRUS (MC) PLC

MANAGEMENT REPORT

The Board of Directors of The Mall of Cyprus (MC) Plc (the "Company") presents its Management Report together with the unaudited condensed interim financial statements of the Company for the period from 1 January 2019 to 30 June 2019.

Principal activities and nature of operations of the Company

The principal activity of the Company, which is unchanged from the previous period, is the leasing/granting of rights of use of space of its property, the Shacolas Emporium Park which includes a Shopping Mall, an IKEA store and other building developments for retail/commercial purposes.

Changes in Company structure

There were no changes in the Company structure during the period from 1 January 2019 to 30 June 2019. The Company does not intend to proceed with any acquisitions or mergers. As of 30 June 2019 and the date of this report, there have been certain amendments in the composition of the main shareholders of the Company. Such changes are stated in note 20 to the condensed interim financial statements.

Review of current position, future developments and performance of the Company's business

During the period ended 30 June 2019 the Company had a slight increase in revenue earned. The net profit after tax for the period attributable to the shareholders of the Company amounted to €3,429,962 (period ended 30 June 2018: €3,534,902). On 30 June 2019 the total assets of the Company were €210,029,344 (31 December 2018: €200,479,030) and the net assets of the Company were €89,356,084 (31 December 2018: €85,926,122).

The financial position, development and performance of the Company as presented in these unaudited condensed interim financial statements are considered satisfactory.

Principal risks and uncertainties

The principal risks and uncertainties faced by the Company are disclosed in Note 1 of the condensed interim financial statements.

The Cypriot economy has recorded positive growth in 2018 and 2019 after overcoming the economic recession of recent years. The overall economic outlook of the economy remains favorable, however there are still downside risks emanating from the still high levels of non-performing loans, the public debt ration as well as possible deterioration of the external environment for Cyprus. This operating environment has a significant impact on the Company's operations and financial position. Management is taking necessary measures to ensure sustainability of the Company's operations. However, the future effects of the current economic situation are difficult to predict and management's current expectations and estimates could differ from actual results.

Use of financial instruments by the Company

The Company's activities expose it to a variety of financial risks: market risk (including fair value interest rate risk and cash flow interest rate risk), credit risk and liquidity risk.

The Company's risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Company's financial performance. Risk management is carried out by a central treasury department under policies approved by the Board of Directors. Management identifies, evaluates and hedges financial risks in close co-operation with the Company's operating units. The Board provides written and/or oral principles for overall risk management, as well as written and/or oral policies covering specific areas, such as interest rate risk, credit risk, and investment of excess liquidity.

Cash flow and fair value interest rate risk

The Company's interest rate risk arises from long term borrowings. Borrowings issued at variable rates expose the Company to cash flow interest rate risk. Borrowings at fixed rates expose the Company to fair value interest rate risk.

As at 30 June 2019, the Company's liabilities which bore variable interest rates amounted to €95,028,480. The Company's management monitors the interest rate fluctuations on a continuous basis and acts accordingly. The Company does not apply hedge accounting for cash flow interest rate risk.

Credit risk

Credit risk arises from cash and cash equivalents, deposits with banks and financial institutions, as well as credit exposure to tenants, including outstanding receivables and committed transactions.

For banks and financial institutions, only those that are highly rated by the Board of Directors are accepted. Management assesses the credit quality of the users of space, taking into account its financial position, past experience and other factors.

THE MALL OF CYPRUS (MC) PLC

MANAGEMENT REPORT

At 30 June 2019, Company's credit risk arises from trade receivables amounting to €2.246.887, other receivables amounting to €92.885, and bank balances amounting to €1.554.564. The amount of provisions for impairment of receivables was €488.638 as of 30 June 2019 (31 December 2018: €488.638). The individually impaired receivables mainly relate to tenants, which are in an unexpectedly difficult economic situation.

Liquidity risk

Management monitors the current liquidity position of the Company based on expected cash flows and expected revenue receipts. On a long-term basis, liquidity risk is defined based on the expected future cash flows at the time of entering into new credit facilities or leases and based on budgeted forecasts. Management believes that it is successful in managing the Company's liquidity risk.

Future developments of the Company

As at 30 June 2019, the Company substantially completed the project for the expansion of the Mall of Cyprus by about an additional area of circa 5.500m² on the first and ground floor, the use of which is for retail, entertainment and cultural purposes in order to meet the demands of its customers/visitors and also increase the variety of offerings at the mall. With the expansion, about an additional 200 parking places were created as well. Full completion of the works, is projected to be achieved by the end of calendar year 2019.

Results

The Company's results for the period are set out on page 6. The profit for the period is retained.

Share capital

There were no changes in the share capital of the Company.

Board of Directors

There were no changes in the Company's Board of Directors during the period.

Branches

The Company did not operate through any branches during the period.

Events after the reporting period

Any significant events that occurred after the end of the reporting period are described in note 20 to the financial statements.

Director's interests in the Company's share capital

The members of the Board of Directors did not control directly or indirectly any part of the share capital of the Company, at 30 June 2019 and as at the date of this report.

Except from the balance and transactions disclosed in Note 17 of the financial statements, there were no other significant contracts with the Company or related companies, in which a Director or related parties has a significant interest.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS FOR THE PERIOD FROM 1 JANUARY 2019 TO 30 JUNE 2019

1. General information

General

The unaudited condensed interim financial statements consist of the financial statements of The Mall of Cyprus (MC) Plc. The condensed interim financial statements should be read in conjunction with the audited financial statements for the year ended 31 December 2018.

Unaudited financial statements

The condensed interim financial statements for the six months ended on 30 June 2019, have not been audited by the external auditors of the Company.

Operating environment of the Company

The Cyprus economy has recorded positive growth in 2018 and 2019 after overcoming the economic recession of recent years. The overall economic outlook of the Company remains favorable, however there are still downside risks emanating from the still high levels of non-performing loans, the public debt ratio, as well as possible deterioration of the external environment of Cyprus. This operating environment has a significant impact on the Company's operations and financial position. Management is taking necessary measures to ensure sustainability of the Company's operations. However, the future effects of current economic situation are difficult to predict and management's current expectations and estimates could differ from actual results.

2. Summary of significant accounting policies

The principal accounting policies applied in the preparation of these condensed interim financial statements are consistent to those used in the audited financial statements for the year ended 31 December 2018, unless otherwise dated in relation to the application of the new IFRS's as from 1 January 2019.

The condensed interim financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (IFRS), as adopted by the European Union (EU), including International Accounting Standards (IAS) 34 "Interim Financial Reporting" and the requirements of the Cyprus Companies Law, Cap.113 and the Cyprus Stock Exchange Laws and Regulations.

3. Adoption of new or revised IFRS's

During the current period the Company adopted all the new and revised International Financial Reporting Standards (IFRS) that are relevant to its operations and are effective for accounting periods beginning on 1 January 2019. This adoption did not have a material effect on the accounting policies of the Company.

IFRS 16 "Leases" (issued on 13 January 2016 and effective for annual periods beginning on or after 1 January 2019) sets out the principles for the recognition, measurement, presentation and disclosure of leases. While IFRS 16 brings significant changes to lessee accounting, it substantially carries forward the lessor accounting requirements. As such, management does not expect that the new standard would have had a significant impact on its operations.
